

# Tivoli Stone Enhancer™

Technical Bulletin

## Description:

Tivoli Stone Enhancer is a blend of crushed screened marble, granite and other colored agglomerates. Tivoli Stone Enhancer is dried and ready for spray or hand broadcasting. By using different combinations of these aggregates with Tivoli Stone finishes the applicator can achieve the look of limestone, sandstone, marble, granite, terrazzo, canterra, cobblestone, flagstone, slate and other natural stone products.

## Uses:

Tivoli Stone Enhancer may be used as a surface aggregate to achieve many looks. Use in combination with Tivoli Stone Classic, Tivoli Stone Plaster and Tivoli Stone Antique Stucco.

## Colors:

Dark Cedar  
Umber  
Caramel Yellow  
Old Yellow  
Burnt Pink  
Salt and Pepper  
Oxblood  
Verde Green  
Rose  
Black

## Packaging:

1 Gallon pails (weight varies from 9-12 lbs.)  
3.5 Gallon pails (weight varies from 45-55 lbs.)

## Coverage:

Approximate coverages are as follows:

- 3.5 gallons Tivoli Stone Enhancer will cover approximately 200-1500 square feet.

(coverage will vary depending on amount of aggregate being used to achieve specific color and texture.

## Mixing:

No mixing is necessary unless two or more colors are combined for a more uniform color. If mixing, combine desired colors in plastic pail. Mix no more than 2 gallons of Tivoli Stone Enhancer at one time with a drill mixer.

## Limitations:

Tivoli Stone Enhancer is not recommended to be put into Tivoli Stone finishes but solely as a surface aggregate. Color may vary depending on application technique, amount applied and lot number.

## Surface Preparation:

Surface should be wet enough that Enhancer sticks to surface.

## Application:

Tivoli Stone Enhancer can be applied with a drywall hopper gun or by throwing or sprinkling the aggregate into the finish while it is wet. Enough force should be used so Enhancer is imbedded into

finish material. After desired amount of Enhancer is applied it is recommended to tamp aggregate into finish with a clean, dry trowel after the finish is set enough that product does not "stipple".

## Curing/Drying:

The use of Tivoli Stone Enhancer will accelerate the set of the surface of Tivoli Stone finishes due to absorption.

## Clean Up:

Clean tools and equipment with water after use.

## First Aid:

SKIN CONTACT: Wash thoroughly with soap and water.

EYE CONTACT: Flush immediately with water for 10-15 minutes and contact a physician.

## Spills:

Sweep up with broom or vacuum.

## Disposal:

Dispose of in accordance of local, state or federal regulations.

## Warning:

KEEP OUT OF REACH OF CHILDREN. NOT FOR INTERNAL CONSUMPTION, FOR INDUSTRIAL USE ONLY.
